

MODERATE GROWTH FUND

UNDERLYING ALLOCATIONS^[1]

INVESTMENT OBJECTIVES

This Fund seeks total return through capital appreciation, with a secondary objective of current income. 60% to 80% of this Fund's assets will be invested in common stocks. Common stocks in this Fund will generally be weighted slightly toward those found in the S&P 500; however mid-cap stocks, small stocks and foreign equities will be well represented in the Fund as well. The balance of Fund assets will be invested in a mixture of U.S. government, corporate, international and high yield bonds and other income producing securities.

INVESTMENT MANAGER

PensionTrend Investment Advisers, LLC (PTIA) is the investment advisor for the Fund. It manages money with the overarching goal to provide every investor with sophisticated investment strategies consistent with their risk tolerance. PTIA identifies investment managers believed to have exceptional capabilities, blends them to help manage risk through diversification, and monitors them. Regardless of market conditions, PTIA's investment approach remains constant. PTIA offers every investor –from the largest to the smallest –investments to help manage risk.

FUND OVERVIEW

Total Assets	\$28 Million
Total Estimated Fees	0.85%
Class	45
CUSIP	00210W485

Total Estimated Fees will vary depending on underlying holdings and allocations to various asset categories.

^[1]The asset allocation set forth above is consistent with the investment policy statement and trust disclosure document on file for each fund. From time to time, PTIA may modify the target asset allocation for any fund and/or the underlying funds in which a fund invests. PTIA expects that amounts it allocates to each underlying fund will generally vary only within 10% of the ranges specified. Strategic asset allocation and diversification do not assure profit or protect against loss in declining markets.

^[2]The Fund's inception is 11/09/06. Historical performance is not a guide to future performance. Performance returns assume the reinvestment of earnings of the Fund. There is no assurance that the stated investment objectives of the Fund will be achieved. The Fund is not a mutual fund. Investment in a Fund involves risk, including the possible loss of capital. Investments in the Fund are not insured or guaranteed by any bank, the FDIC or any other governmental agency. Please review the Fund governing documents carefully before investing. Past performance does not guarantee future results.

^[3]The Composite Index used for performance measurement purposes is comprised of a combination of passive indexes most closely approximating the asset allocation of the Moderate Growth Fund. Market indices have been provided for comparison purposes only; they are unmanaged and do not reflect the deduction of any fees or expenses. Index performance does not provide an indicator of how individual investments performed in the past or how they will perform in the future. Performance figures for the market indices are provided by third party sources. PTIA cannot guarantee their accuracy. It is not possible to invest directly in these indexes. The indexes used in this composite are: S&P 500 (35%), Russell 2000 (15%), EAFE (20%) and Barclays Aggregate Bond Index (30%).

TRUSTEE

The Moderate Growth Fund is a collective investment fund (CIF) maintained by Wilmington Trust Company for the collective investment of qualified plan assets. Wilmington Trust Company evaluates and selects the advisors used in the fund.

⁽⁴⁾This summary includes returns for certain funds which predate the inception of the funds. The performance info included prior to the inception of the fund does not represent the performance of the fund. Where such performance information is included, the information is based upon a separately managed investment fund, portfolio, account or composite (a "Portfolio") which has the same investment objective, policy, strategy and risks as the fund. Such Portfolios are not subject to the same type of expenses to which the corresponding fund is subject, which could be lower than the expenses of the fund. Consequently, if the Portfolio had been managed in the same fashion as the correlating fund, the performance information would have been lower than what is shown.

[†]The expense ratio includes the investment advisory fee or fund operating expenses (if any), and is exclusive of any trustee fee, revenue sharing, recordkeeping, sales commission or similar fees. The return figures shown do not reflect these fees and the return for the fee class listed will be lower. The share class for the expense ratio shown may not be available for investment by all plans. Other fee classes have higher fees and the net return investors earn will be lower than that shown.
